

EASILY UPGRADE YOUR WINDOWS

400 Series Conversion Kits are designed specifically to retrofit existing Andersen® Narroline® double-hung windows (made from 1968 to 2013) into easy-to-clean tilt-wash double-hung windows with High-Performance Low-E4® glass. They provide quick and easy installation with less mess than traditional window replacement because there are no window frame tear-out or trim modifications needed.

- Tilt-wash feature allows you to clean both sides of the glass from inside your home
- Existing frame and trim are unaffected, so there's minimal disruption to the home
- Kit includes new upper and lower sash, balancers, jamb liners, lock and keeper
- High-Performance Low-E4 glass is 46% more energy efficient than ordinary dual-pane glass in winter and 56% more energy efficient in summer*
- Compressible jamb liner provides a reliable seal between sash and frame
- Add style with grilles, exterior trim, art glass or patterned glass

HOW TO IDENTIFY A NARROLINE WINDOW

Two sash, both slide up and down

Thin nylon cords in side jambs

Andersen logo in the lower corner of the glass

Recessed sash lift

*Values are based on comparison of Andersen® double-hung window conversion kit SHGC to the SHGC for clear dual pane glass non-metal frame default values from the 2006, 2009, 2012, 2015 and 2018 International Energy Conservation Code "Glazed Fenestration" Default Tables.

ACCESSORIES

• Grilles

Choose from a variety of grille patterns available or work with Andersen to create custom patterns.

• Insect Screens

Optional TruScene® insect screens (available for windows from 1981 or newer) provide 50% more clarity than our conventional insect screens, letting in more air and sunlight.

*Hardware is sold separately, except standard hardware.

Distressed bronze and oil rubbed bronze are "living" finishes that will change with time and use.

Printing limitations prevent exact replication of colors and finishes. See your Andersen supplier for actual color and finish samples.
