

### SUPERIOR STYLING, HANDCRAFTED QUALITY AND EXCEPTIONAL PERFORMANCE

The V3000 Series Gliding Window features beveled exterior edges and an integral pull rail, an ideal solution for any new construction or replacement window project.

- **New Construction model 1630:** Featuring beveled exterior edges and an integral pull rail, this window is available in two- and three-lite configurations with a DP-50 option. A slim profile offers a large viewing area with clean, continuous lines and an unobstructed outlook, making this an ideal solution for any new construction project.
- **Replacement model 1685:** The finless 1685 double sliding window is ENERGY STAR-qualified in all four U.S. climate zones and can be upgraded to a triple-pane window. Standard features like our warm-edge spacer system and heavy-duty weatherstripping make this double-slider window energy efficient and stylish.
- Choose from 2 interior frame colors and 8 exterior frame colors
